- Home Development
- Business Tools & Systems to Automate Your Business

YOU ARE WOMAN, YOU ARE ROYALTY

At the age of 30 I was diagnosed with cancer. I was told it was level 4 and given no details except that it was a very aggressive type and that we had to act right then! I went home to think about what I would do and how I would help my family, that's where I got the idea for my business. I want you to know that even though you may be in a storm, you can hold your head high, wear a crown and act like royalty right through it all.

TAKING TIME TO SMELL THE "FLOWERS"

While my business was growing and my career was changing gears, the same could not be said for my little family. My twins were craving my attention, my husband was depressed because I wasn't giving him the time he needed, and I wasn't sure how to fix it, or if it could be fixed or saved. I felt like the planet's worst wife and mother.
